<u>Tester name:</u>	**Ewelina Linek**
<u>Test date:</u>	**15.02.2019 – 17.02.2019**
<u>Product name:</u>	**Fonda**
<u>Environment:</u>	**DEV** http://front.dev.ncf-fonda.hetzner.lfac.dk/
<u>Platform:</u>	**Windows 10 64 – bit, Chrome 67.0.3396.87 (64 – bit)**

Defect ID: 04

|	
<u>Title:</u>	No validation issues info in the required forms
<u>Priority:</u>	**major**
<u>Category</u>:	functional
<u>Functionality:</u>	Create account
<u>Description:</u>	There is no specific info about wrongly filled inputs or missing entries in the form. There is only the popup message that something went wrong.
<u>Prerequisites:</u>	Found account is pre-created with already activated email address

<u>Step to reproduce:</u>

1. Log in to the http://front.dev.ncf-fonda.hetzner.lfac.dk/

2. Switch web page language to English

3. After that click the check box 'Log in'. A window will appear 'Profile information'

4. Don't fill the text box and press the check box 'Save'

<u>Result:</u>	There is no information about the obligation to fill in the text box.
<u>Expected result:</u>	Required text box not filled with data should be marked (for example red colour), especially text box that are required (marked with a star). Wrongly provided data to the input should be marked as not validated trying to save the form.
